

Family Friendliness Like No Other

Welcome to Beaver Creek, North America's #1 family resort. We offer an experience that caters to kids and families on and off the snow as well as in our village and lodges. Our Children's Ski and Snowboard School is recognized as one of the best in the world. In addition to our friendly dedicated pros, we feature The Ranch, a state-of-the-art, kids-only learning center complete with instant video playback for high quality instruction and a healthy kids menu to support an active lifestyle. The Buckaroo Express Gondola serves learning-specific terrain that lends itself to creating lifelong passionate skiers whether you start at age 3 or 53.

When the ski day is done, Beaver Creek features complimentary family programming every night of the week including activities such as a twilight family snowshoe tour above the Village that ends with hot cocoa and chocolate chip cookies, a glowstick ski-down followed by fireworks, disco ice skating, rail jams and more. New last season, the Haymaker Tubing Hill also offers four lanes of sliding fun at The Ranch.

Above all else, guest service at Beaver Creek is arguably the best in the world. We've been recognized by the ski industry for five consecutive years with the Best Overall Guest Service award. Embracing our "Not exactly roughing it" promise, from the moment you set foot in the resort let our team of employees and volunteer Ambassadors help make your visit an experience of a lifetime.

We look forward to seeing you on the slopes.

General Manager,
Children's Ski & Snowboard School

Our Commitment to the Environment

Much like the living world, social responsibility is inherently essential to Vail Resorts. Vail Resorts Echo, the Company's corporate stewardship program, nurtures social responsibility in our company. Aimed at both protecting the beautiful natural resources that surround the resorts and helping build stronger communities where our employees live and work, Vail Resorts Echo encompasses three core efforts - environmental stewardship, charitable giving and community engagement.

Vail Resorts Echo focuses on:

- Forest restoration and resource conservation
- Providing all kids access to snowsports
- Programs that create healthy kids and communities

Preserving and Protecting. Environmental stewardship for Vail Resorts means more than responsibility, it means interdependence. Our resorts operate in some of the world's greatest natural environments, and we in return are compelled to care for and preserve them.

Promoting overall forest health is of critical importance to Vail Resorts Echo not only because forests provide the spectacular natural settings for our five mountain resorts and neighboring hotels, but they also ensure clean water and abundant wildlife, and help mitigate climate change. Vail Resorts is working with the U.S. Forest Service on many forest health projects, including vegetation management plans at each of our resorts and one of the largest public-private restoration projects in the country to restore critical watersheds and habitat in the Hayman fire burn area.

Working With VR Echo to Improve our Forests. Vail Resorts Echo and the National Forest Foundation, the non-profit arm of the U.S. Forest Service, have partnered to more than \$1.7 million for local conservation projects that improve and enhance the forests in and around our resorts. Thanks to donations that are matched by the NFF, we've helped local non-profits build trails, improve wildlife habitat and improve the overall health of our forests.

Appetite for Life—Good food on a grand scale. At Vail Resorts, we believe good food is fuel for a life well lived. Our commitment is to provide our guests with wholesome high-quality options throughout their dining experience in our mountain dining locations as well as in our hotels.

Reduce, Reuse, Recycle. Vail Resorts Echo boasts the largest on-mountain recycling program in the world. Every year, our Company recycles more than 6,000 tons across the resorts and our lodging properties.

Safety on the Slopes

Heads Up – Know the Code, It’s Your Responsibility Beaver Creek received its third Best Overall Safety Award from the National Ski Areas Association. We pride ourselves on instilling safety as a core value among employees and also educating and promoting a safe, fun environment on the mountain for guests.

Your Responsibility Code

Beaver Creek is committed to promoting skier safety. In addition to people using traditional alpine ski equipment, you may be joined on the slopes by snowboarders, telemark skiers or cross-country skiers, skiers with disabilities, skiers with specialized equipment and others. Always show courtesy to others and be aware that there are elements of risk in skiing and snowboarding that common sense and personal awareness can help reduce. Know your ability level and stay within it. Observe “Your Responsibility Code” listed below and share with other skiers the responsibility for a great skiing experience.

- Always stay in control, and be able to stop or avoid other people or objects.
- People ahead of you have the right of way. It is your responsibility to avoid them.
- You must not stop where you obstruct a trail, or are not visible from above.
- Whenever starting downhill or merging into a trail, look uphill and yield to others.
- Always use devices to help prevent runaway equipment.
- Observe all posted signs and warnings. Keep off closed trails and out of closed areas.
- Prior to using any lift, you must have the knowledge and ability to load, ride and unload safely.

Unmarked Obstacles Be advised that Beaver Creek does not mark all potential obstacles or hazards. When marked, poles, flags, fencing, signage, padding or other forms of marking are used to inform the skier/ rider of the location of a potential obstacle or hazard. These markers are no guarantee of your safety. It is part of your responsibility under the Your Responsibility Code and the Colorado Ski Safety Act to avoid all obstacles and hazards.

Colorado Ski Safety Act The Colorado legislature, recognizing risks that are inherent in the sport, has passed the Colorado Ski Safety Act which provides inherent risks of the sport and relative responsibilities of the “skier” and the ski area. You must obey the Act. Under the Act, any person using the facilities of a ski area is considered a skier. A summary of the inherent risks is listed below:

WARNING

Under Colorado law, a skier assumes the risk of any injury to person or property resulting from any of the inherent dangers and risks of skiing and may not recover from any ski area operator for any injury resulting from any of the inherent dangers and risks of skiing, including: changing weather conditions; existing and changing snow conditions; bare spots; rocks; stumps; trees; collisions with natural objects, man-made objects, or other skiers; variations in terrain; and the failure of skiers to ski within their own abilities.

The Ski Safety Act was amended in 2004 to include CLIFFS, EXTREME TERRAIN, JUMPS AND FREESTYLE TERRAIN as inherent dangers and risks of the sport.

Trail Designations Skiers and Riders should be advised that a green circle, blue square, single or double black diamond, or orange oval at Beaver Creek is not necessarily the same as a similar designation at other resorts. The system is a relative rating of trails at each resort and does not compare trail or park difficulty between resorts. Skiers and Riders should begin with the easiest terrain and then move up in difficulty as their ability permits in order to understand the relative rating at Beaver Creek.

Electronic Devices Beaver Creek discourages the use of electronic devices—cell phones, music players, or earphones—while skiing and snowboarding, or loading and unloading lifts.

“Smart Style” in Freestyle Terrain

Make A Plan. Every time you use Freestyle Terrain, make a plan for each feature you want to use. Your speed, approach and takeoff will directly affect your maneuver and landing.

Look Before You Leap. You are responsible for inspecting Freestyle Terrain before initial use and throughout the day. The features vary in size and change constantly due to snow conditions, weather, usage, grooming and time of day. Do not jump blindly. Use a spotter when necessary.

Easy Style It. Always ride or ski in control and within your ability level. Do not attempt Freestyle Terrain unless you have sufficient ability and experience to do so safely. You control the degree of difficulty you will encounter in using Freestyle Terrain, both on the ground and in the air.

Respect Gets Respect. Respect Freestyle Terrain and others. Only one person on a feature at a time. Wait your turn and call your staff. Always clear the landing area quickly. Respect all signs and do not enter Freestyle Terrain or use features when closed.

Lift Safety Under Colorado law, you cannot board a lift unless you have sufficient physical dexterity, ability and knowledge to negotiate or to use such lift safely or until you have asked for and received information sufficient to enable you to use the lift safely. You may not use a lift or any ski trail when under the influence of drugs or alcohol.

Snow Cats and Snowmobiles **CAUTION:** snowcats, snowmobiles and snowmaking may be encountered at any time.

Slow Zones Certain areas (indicated on the map in yellow) are designated as SLOW ZONES. Please observe the posted slow areas by maintaining a speed no faster than the general flow of traffic. Space and speed are especially important in these areas. Fast and aggressive skiing will not be tolerated.

Helmet Use Beaver Creek encourages our guests to wear a helmet. While helmets may mitigate or reduce the severity of some head injuries, their use does not guarantee safety and will not prevent certain injuries. Beaver Creek reminds you that every winter sport participant shares responsibility for his or her safety and for that of others using the ski area facilities. At Beaver Creek, the safety of our employees and guests is a top priority. We’ve taken this commitment to the next level and all of our employees are now required to use a helmet while skiing or snowboarding on the job at our resorts.

Backcountry Warning Pursuant to the Colorado Ski Safety Act, the ski area assumes no responsibility for skiers going beyond the ski area boundary. To access the backcountry, use designated gates only. Areas beyond the ski area boundary are not patrolled or maintained. Avalanches, unmarked obstacles and other natural hazards exist. Be aware: the backcountry avalanche hazard may be extreme. Rescue in the backcountry, if available, is the responsibility of the Eagle County Sheriff. It will be costly and may take time.

High-Altitude Environment Some visitors may experience symptoms associated with Beaver Creek’s high altitude. Symptoms may include headaches, nausea, loss of appetite, restless sleep, coughing and difficulty in breathing. If symptoms persist or if you have a concern about your health, you should seek medical attention.

Protect Your Skiing and Riding Beaver Creek would like to remind you that your pass or ticket is non-transferable and may not be resold or used by anyone other than the person to whom they were issued. Please report lost or stolen passes to resort staff or law enforcement immediately. Resort staff may ask to you to show your pass or ticket at any time. Failure to show a valid pass or ticket or engaging in fraudulent behavior of any kind may result in loss of skiing and riding privileges, and criminal prosecution.

What's new this season?

Mamie’s Mountain Grill This popular grill-your-own eatery located at the top of Bachelor Gulch Express Lift #16 features expansive views and now has a larger deck and more seating including a yurt for indoor dining on snowy days.

Wedding Deck Mother Nature provides a stunning backdrop for Beaver Creek’s new outdoor wedding deck overlooking the Gore Range. Located in the hillside east of Spruce Saddle Restaurant and created from natural stone and materials, wedding parties up to 200 people can experience an unforgettable summertime mountaintop celebration.

Haymaker Tubing Hill To the delight of young and young-at-heart tubers, this lift-served four lane tubing hill debuted last season offering yet one more reason for families to stay and play outdoors on the slopes. Accessible by riding the Buckaroo Express Gondola. Tickets and information available at The Ranch, located at the top of the gondola. (970) 754 5368.
